

Zenoah G3300 Chainsaw

G3300 chainsaw is designed to endure the tough conditions and severe environments. It is very easy to use and delivers high power and extra durability, as well as the quick maintenance feature within the machine.

Dust-free

It separates out dust using a centrifugal method and intakes only clean air. The original "dust-free" features keeps air clean and needs maintenance far less frequently.

Super e-START

The recoil pulling force has been reduced and the pulling operation is very smooth. It is thanks to the damper spring installed in our new Super e-START.

ENGINE		DIMENSIONS
